

## **EM1620L / 2033L / 2040L High Speed VMC**

### **SPECIFICATIONS:**

- FANUC/SIEMENS/MITSUBISHI/ SMART Control
- Linear Guideway
- Table Size (W x L): up to 510 x 1,200mm (20.1" x 47.2")
- Table Load: 600kg (1,320lbs)
- Spindle Speed: up to 10,000rpm
- Spindle Motor: up to 25HP
- Tool Change: Arm Type

### **FEATURES:**

- Cost saving VMC for high precision, productivity, and high speed machining.
- High-speed linear ways on all axes that ensure fast linear movement during cutting.
- Automatic chip flushing system moves cutting chips to the center and the chip conveyor delivers them to the chip collector which is located at the rear of the machine base.
- Major parts of the machine are constructed with high-quality cast iron which offers superior stability.
- Servo motor coupling is directly linked with the screw to ensure machining accuracy.
